Preparation

Ensure surface to be painted is sound, clean, dry and free from grease. Remove all loose and defective paint. Rub down sound previously painted surfaces with fine waterproof abrasive paper and rinse thoroughly to provide a key. Avoid the inhalation of dust. Wear a suitable face mask if dry sanding. Special precautions should be taken during surface preparation of pre-1960s paint surfaces over wood and metal as they may contain harmful lead. For further advice contact Technical Advisory.

Application

Stir well before use. Apply liberally, brushing firmly onto the surface. One coat is normally sufficient on most surfaces.

Cleaning

Remove as much product as possible from application equipment before cleaning. Clean equipment immediately after use with White Spirit or Turpentine Substitute. Some local authorities have special facilities for disposal of waste coatings. Do not empty product into drains or watercourses. Replace lid firmly.
